# Proventia PROCARE™ Drive

for Buses and Trucks

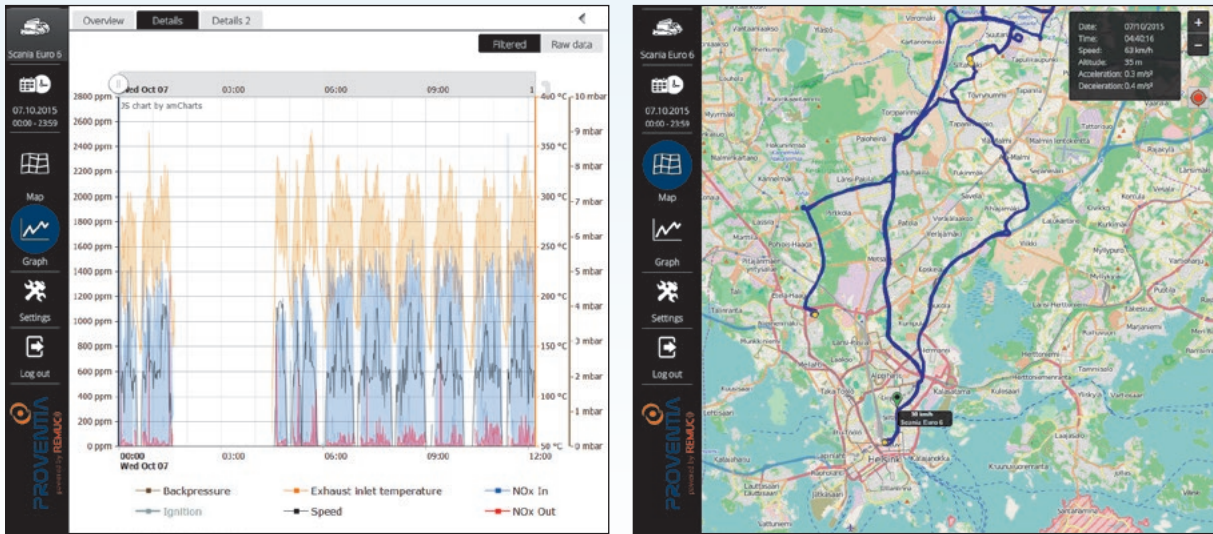

## NO<sub>x</sub> Emissions Monitoring System

Proventia PROCARE™ Drive is a web-based, real-time emissions tracking system that monitors the performance of the vehicles' exhaust aftertreatment system and the amount of NO<sub>x</sub> emitted, online 24/7.

Proventia PROCARE™ Drive includes a data logging device installed in a vehicle and the Proventia PROCARE™ Drive web service. You can log in to the web service from any PC, tablet or smartphone with an internet connection at any time to check the status of your vehicles' or fleets' NO<sub>x</sub> performance in different phases of their daily route.

# Proventia PROCARE™ Drive

With the Proventia PROCARE™ Drive emissions monitoring system, vehicle emissions can be reliably monitored and reported.

## Real time monitoring

With Proventia PROCARE™ Drive, you can monitor the amount of NO<sub>x</sub> emitted by an entire fleet or you can drill down to a single vehicle and see the NO<sub>x</sub> emissions and emission reduction performance of a vehicle's exhaust aftertreatment device simultaneously in different phases of its daily route. PROCARE™ Drive's GPS and 3G location tracking keeps you up to date

how much NO<sub>x</sub> your vehicles are emitting at any spot of their route.

## Easy reporting

All information collected will be saved in the safe and secure cloud storage automatically. PROCARE™ Drive generates easy reports for fleet managers or public transport authorities about a vehicle's or fleet's NO<sub>x</sub> emissions and reduction performance.

## Key features

- 24/7 online NO<sub>x</sub> and exhaust system performance monitoring
  - Real-time NO<sub>x</sub>, exhaust gas temperature and backpressure data
  - AdBlue® level, temperature and dosing rate
- Automated DPF and SCR system operation alerts
  - Provides alerts about DPF maintenance needs
- 24/7 online location tracking
  - Vehicle locations displayed simultaneously on map
  - Average speed, total distance in km
  - NO<sub>x</sub> amounts emitted at any phase of the route
- Automatic, wireless vehicle data transfer to customer-specific, secure cloud storage
  - Easy data exporting for reports
  - Easy access for fleet operators and public transport authorities

**Proventia PROCARE™ Drive** takes care of monitoring your fleet's emission performance, minimising the risks associated with vehicle exhaust systems through alerts, and improving your emission monitoring and reporting.
